Re: Helmet and Facemask Reminder

A reminder that starting on **January 1, 2012** the following policy, as listed in the CLA Operations, will take effect in regards to helmets and facemasks:

12.4. Helmets & Facemasks

12.4.1. Lacrosse is a sport with intrinsic hazards and participation in the sport implies the acceptance of some risk of injury. When used as intended for lacrosse and in accordance with the manufacturer's fitting instructions, the use of the helmet certified under these standards is intended to reduce the frequency and severity of head injuries.

12.4.2. For Box and Men's Field Lacrosse, all players are required to wear a helmet which must meet either of the following standards:

12.4.2.1. A National Organizing Committee for Safety in Athletic Equipment (NOCSAE) approved helmet and facial protector, approved as a complete unit, for lacrosse.

12.4.2.2. A Canadian Standards Association (CSA) approved for Ice Hockey helmet with the appropriate CSA approved facemask for lacrosse.

12.4.2.3. A Canadian Standards Association (CSA) approved for Ice Hockey helmet with the appropriate CSA approved facemask for hockey with the following exceptions:

12.4.2.3.1. The facemask shall be designed to cover the wearer's entire face to the lower line of the jaw, and prevent the ball or the head of the stick from touching the face of the wearer.

12.4.2.3.2. The facemask must be finished so that it does not create a risk of injury to the wearer or another person when it is used as it is intended.

The above is also outlined in Technical Bulletin 09-01 – Facemask Standards which is available on www.lacrosse.ca under 'Equipment'.

The following facemasks and helmet combinations currently meet the requirements of CSA standard Z262.8-09 and have CSA approval at this time:
